PARENT TESTIMONIALS

My daughter loved her time at the YMCA this summer and was so sad to see camp come to an end. Special kudos to Mr. Bryce for his care and attention - Collins absolutely adored him! As a working parent, it made my heart happy to know she was going somewhere she enjoyed every day (with hours that fit my schedule as well!). We will definitely be back again next year.

We were at another YMCA camp a few weeks ago and we never heard about his behavior, never heard about reading and no lunch nor snacks were provided! This is so REFRESHING! We make our son read 15 minutes a day when he gets home just to make sure we are improving for the next school year but to see that this camp does it makes my heart smile! We will definitely recommend the duPont location to our friends!!! THANK YOU ALL for being the community our children need.

She comes home talking about all the fun things she did and if I try and pick her up early she gets upset because she'll miss something fun. You guys are doing something great!

First time sending our son to YMCA summer camp. As a parent, I always worry. It has surpassed my expectations. My son has a great time and comes home happy and singing daily. We love Ms. Meti and the rest of the counselors! I am happy we chose YMCA Galimore.
