PARENT TESTIMONIALS

This camp has been the best experience my child has had at a summer camp. He has attended two other non-YMCA camps that over promised and under delivered. This year was a home run, he was challenged, entertained and even told me not to pick him up early. Thank you to the staff for delivering an excellent experience. Not only will he be back next year but his brother will join him at camp too!!

–Argyle Parent

We had such an amazing experience. They kept everyone active, engaged, and entertained!!! Everyday my three kids come home filled with joy and share tales of their adventures during the day. Also, my son is learning how to swim and he comes home boosting about how MS. ALYSA is teaching him. I would highly recommend Hopewell YMCA Camp to all. The staff are great with the kids and I can tell they really care!!!

–Hopewell Parent

My son seemed to have a good experience and that is important for me specifically because he is a child with very specific likes and habits. I had signed up for the whole summer and was hopeful it would be a good fit and right away he was positive each day which I appreciated. It made me feel at ease.
